SUBJECT: L.E. Carpenter
Federal Oversight

This memorandum confirms the verbal response from the United State Environmental Protection Agency - Region II (USEPA II) Project Officer, concerning federal oversight of the L.E. Carpenter project, now a NPL site.

L.E. Carpenter has been a state project since 1976 when a directive was issued by NJDEP to clean-up after an oil spill. In September 1986 L.E. Carpenter entered into a definitive, amended ACO with NJDEP as a State enforcement project. In the following spring the site was added to the NPL. The project officer assigned for oversight by USEPA II was Janet Feldstein. She said at that time that NJDEP should continue to be the lead agency and keep EPA apprized on the milestones of the projects.

On June 5, 1989 I re-confirmed with Janet that EPA review of the sampling and QA Plans were not required. She said that such was the case, EPA II (Edison) has an agreement with NJDEP's QA, i.e. EPA II will not repeat the reviews done by the NJDEP.
